FULL SPECTRUM 1250 MG CBD HEMP OIL

WHY IS FULL SPECTRUM SO IMPORTANT?

Our oil contains all the cannabinoids produced by our sustainably grown hemp plants in Central Oregon. Unlike isolate products containing only CBD (oftentimes synthetic), our Full Spectrum extracts contain a variety of beneficial compounds. Each compound works in an independent and symbiotic relationship with CBD. Together these compounds create the most balanced remedy available.

HOW TO USE LIVING EARTH HEMP FULL SPECTRUM CBD HEMP OIL

UNDER THE TONGUE

1/2 a dropper of our delicious formulas for a full dose. Adjust as needed, less or more for just the right affect for you!
